

Muscle training for athletes

The largest and most powerful device within the Galileo series.

It offers the largest training platform and the maximum amplitude range, the Galileo Sport is suitable for all those who want more – increase of muscle performance for sports enthusiasts and top level athletes. The maximum trainee weight of 200 kg allows the use of large additional weight. This increases the co-contraction and muscle tone for maximum stimulus in professional sports.

Chip option available supporting time accounts and presetting of individual training profiles.
